## COMMUNITY SUPPORT

### PAWS IN THE CITY ANIMAL RESCUE

This is an organization that my wife and I have been big supporters of since 2012. My wife serves on the board of directors and I enjoy helping out where I can by doing doggy photo shoots and providing content to be shared on their social media platforms. If you would like to find out more info on the organization or would like to help, checkout their Facebook at [Paws in the City Dallas](#)

# Brian Farmer

## Full Stack Developer

## SUMMARY

A highly energetic Web Developer, who is a self-starter, recognized for sound judgement, time management, and attention to detail, with a "look beyond obstacles" approach to problem solving. Passionate about clean code, smooth interaction, and bridging the technical and aesthetic. Highly adaptable technically, with a focus on front-end development.

## PROFESSIONAL PROFICIENCIES:

Positive and Uplifting Attitude, Concise Communication, Active and Effective Team Member, Receptive to Feedback, Emotionally Composed, Adaptive to Environment.

## TECHNICAL PROFICIENCIES:

HTML5, CSS, Bootstrap, JavaScript, jQuery, Node.js, Express, React, MYSQL, Test Driven Development, Responsive First Design, Cross-Browser Compatibility, Front-End and Server-Side API's.

## EXPERIENCE

### OIL & GAS CONSULTANT

JAN 2014 to Present | BRIAN L FARMER LLC | WYLIE, TX

Plan, organize, and coordinate rig site operations to ensure drilling projects are on schedule. Conduct daily operation meetings to review scope of work and operation management of change.

- Held multi-year relationships with Rice Energy and Cimarex in Pennsylvania and West Texas providing onsite operation supervision.
- Met planned objectives consistently ahead of schedule in collaboration with project engineers.

### COMMAND CENTER ANALYST

JAN 2019 to OCT 2019 | MOTIVE DRILLING TECHNOLOGIES | DALLAS, TX

Utilize Motive Drilling Technologies Bit Guidance and Auto Slide software in remote operations environment.

- Provide offsite drilling support on up to eight rigs utilizing H&P Technologies drilling applications
- Provide feedback in regard to functionality of applications as well as customer experience with the G.U.I. to software developers in an agile development workflow.

### REMOTE SUPPORT DIRECTIONAL DRILLER

OCT 2016 to JAN 2019 | SCHLUMBERGER DRILLING AND MESUREMENTS | MIDLAND, TX

Worked with team in developing a new company project supporting directional drilling field operations as a Directional Drilling Remote Support Center Specialist.

- Monitor and support junior field DD's as well as providing cross training support to MWD's in developing their directional drilling competencies.
- Provide remote directional drilling support and guidance to clients operating with drilling contractors steering the well.

### DIRECTIONAL DRILLER

JULY 2010 to JULY 2013 | HALLIBURTON ENERGY SERVICES | OKLAHOMA CITY, OK

Known for my ability to establish positive customer relations with clients while working towards common goals.
